

## REMARKS

Claims 1, 2, 11-17, 19-32, and 34-43 remain in the application for consideration by the Examiner.

The amendments to the specification and drawings were first made in the parent case. The applicant has amended Figure 5A to add the Prior Art legend. Should the proposed amendment to the drawings be acceptable to the Examiner, formal drawings incorporating the proposed change will be provided upon allowance of the claims of the application.

Newly added Claims 41-43 depend from Claims 1, 3, 11, and 26 and should be deemed allowable for that reason and on their own merits. The Claims 41-43 find support at lines 18-21 of page 14 of the specification.

To the extent necessary, Applicants petition for an Extension of Time under 37 CFR 1.136. Please charge any fees in connection with the filing of this paper, including extension of time fees, to the deposit account of Texas Instruments Incorporated, Account No. 20-0668.

Should the Examiner have any comments or suggestions, it is respectfully requested that the Examiner contact the undersigned in order to expeditiously resolve any outstanding issues.

An early and favorable action is respectfully requested.

Respectfully submitted,
